

User Guide to University Online Resources

You can access to the electronic resources of the University by remote connecting to these links:

- <https://www.unicampania.it/index.php/ateneo/strutture-universitarie/sistema-bibliotecario/risorse-elettroniche>
- <https://scholar.google.com>
- [EDS ALL IN ONE. Universit  Luigi Vanvitelli \(ebscohost.com\)](https://eds.all.in.one)

where you can find all the necessary information.

You need to connect to the University proxy by your Unicampania credentials. All information about the use of the University proxy is at the following link: <https://www.wifi.unicampania.it> (Firefox browser is recommended).

Once you have found what you are looking for just click on the digital version link if it's available.

The editorial existence of the book/article is an essential condition, in other words the publishing house has actually produced the electronic version.

If it is not possible to download the pdf, specifically scientific articles (they weren't probably purchased by the University) or parts of books not over the 15%, you need to register on the NILDE platform (click on the following link <https://nilde.bo.cnr.it/>) and associate at the Psychology library of the University. **It is not possible to request more than 6 articles weekly.**
