

User's Guide to University Online Resources

You can access the University's electronic resources by remote connecting to these links:

- <https://www.unicampania.it/index.php/ateneo/strutture-universitarie/sistema-bibliotecario/risorse-elettroniche>
- https://scholar.google.com/#d=gs_ads
- [EDS ALL IN ONE. Università Luigi Vanvitelli \(ebshost.com\)](#)

where you can find all the informations you need.

However, It is necessary that you connect to the University proxy by your Unicampania credentials. You will find information about the use of the University proxy at the following link: <https://www.wifi.unicampania.it> (the Firefox browser is recommended). Once you have found the source you need simply click on the link to the digital version if, of course, it is available.

A crucial condition is the editorial existence of the book/article, meaning that the publishing house has actually produced the electronic version.

If it is not possible to download the pdf of the material, specifically scientific articles (because they were probably not purchased by the University) or parts of books not over the 15%, you will have to register on the NILDE platform (click on the following link <https://nilde.bo.cnr.it/>) and will have to associate at the Psychology library of this University. **It is not possible to request more than 6 articles weekly.**
